INTRODUCTION

This is the first edition of The Canadian Groundwater Directory produced by Environment Canada. The Directory identifies individuals and organizations involved in groundwater-related work and provides information on their groundwater interests. The aspects of groundwater included are: resource characterization, development, management, treatment, and research and technology development.

The Directory focuses on Canadian groundwater issues, workers and organizations. It is hoped that the Directory will facilitate information exchange between the many individuals working on groundwater-related problems in Canada.

The first edition of the Directory has been prepared by a consultant under contract. Due to time limitations, some workers and organizations may have been omitted. Expanded and updated editions will be produced periodically.

DIRECTORY FORMAT AND ORGANIZATION

Directory Information per Individual. The information (Data Record) per individual consists of:

Name
Title
Organization (up to three divisions)
Address
Category (see below)
Telephone number
Interest Code (see below)

INTRODUCTION

Voici la première édition du Répertoire canadien en matière d'eaux souterraines, une réalisation d'Environnement Canada. On y identifie les personnes et les organisations oeuvrant dans le domaine des eaux souterraines tout en fournissant des renseignements sur les intérêts des spécialistes. Les personnes et organisations énumérées traitent de plusieurs aspects des eaux souterraines dont les suivants : caractérisation, mise en valeur, gestion et traitement des ressources ainsi que recherche et développement technologique.

Le Répertoire met l'accent sur les questions relatives aux eaux souterraines de même que sur les personnes et organismes travaillant dans ce domaine. Nous espérons que ce document facilitera l'échange de renseignements entre les nombreuses personnes et organisations qui se penchent sur les problèmes concernant les eaux souterraines au Canada.

La première édition du Répertoire a été réalisée à contrat par un expert-conseil. Les noms de personnes ou d'organisations ont pu être oubliés en raison des brèves échéances imposées. Des éditions élargies et révisées paraîtront périodiquement.

PRÉSENTATION ET ORGANISATION

Renseignements par personne. Ces renseignements (enregistrement) comprennent ce qui suit :

- Nom
- Titre
- Organisation (jusqu'à trois divisions)
- Adresse
- Catégorie (voir ci-après)
- Numéro de téléphone
- Code d'intérêt (voir ci-après)

Categories of Organizations. The Directory is divided into six categories based on type of organization:

- Provincial Governments
- Federal Government
- Consultants
- Universities
- Industry (associations)
- Public and Special Interest (limited to organizations with comprehensive environmental and groundwater interests)

Interest Codes. The interests of individuals are indicated by a numbered code, as follows:

1. Resource identification/ characterization
2. Resource development/management/use
3. Contaminant surveys/migration studies
4. Contaminant control (technical engineering aspects)
5. Groundwater treatment (remedial)
6. Impact assessment
7. Monitoring
8. Isotope tracing
9. Geophysical surveys
10. Analyses (chemical)
11. Pesticides
12. Nuclear fuel cycle and other areas concerned with radioactive materials
13. Waste management (general)
14. Research/technology development
15. Policy development
16. Licensing/regulation/standard development and implementation
17. Health-related/epidemiological
18. Modelling
19. Database management
20. Public or special interest

Catégories d'organisation. Le Répertoire est divisé en six catégories établies en fonction du type d'organisation :

- Gouvernements provinciaux
- Gouvernement fédéral
- Experts-conseils
- Universités
- Industrie (associations)
- Groupes d'intérêt publics ou privés (réservé aux organisations qui s'intéressent grandement à l'environnement et aux eaux souterraines)

Codes d'intérêt. Les intérêts des particuliers sont identifiés au moyen des codes numériques suivants :

1. Identification et caractérisation des ressources
2. Mise en valeur, gestion et utilisation des ressources
3. Études des contaminants ou études des oiseaux migrateurs
4. Contrôle des contaminants (aspects techniques)
5. Traitement (correctif) des eaux souterraines
6. Évaluation des incidences
7. Surveillance
8. Localisation d'isotopes
9. Levés géophysiques
10. Analyses (chimiques)
11. Pesticides
12. Cycle du combustible nucléaire et autres domaines liés aux matières radioactives
13. Gestion des déchets (généralités)
14. Recherche et développement technologique
15. Élaboration de politiques
16. Délivrance de permis, réglementation, et élaboration et application de normes
17. Questions reliées à la santé et aspects épidémiologiques
18. Modélisation
19. Gestion de bases de données
20. Questions d'intérêt général ou particulier

FUTURE EDITIONS

To help update and correct the Directory, new and/or revised listings are welcome. Please complete the data forms provided at the end of the Directory.

PROCHAINES ÉDITIONS

Afin de nous aider à mettre à jour et à corriger le Répertoire, nous vous invitons à nous envoyer des adresses, nouvelles ou révisées, en nous retournant, dûment remplis, les formulaires qui se trouvent à la fin du document.

ACKNOWLEDGMENTS

Katherine E. Arkay (Katherine E. Arkay Consulting) prepared the initial draft of the Directory under contract with the Industrial Programs Branch, Environmental Protection, Environment Canada. Mary Dufton revised and updated the initial draft under contract with the Water Planning and Management Branch, Inland Waters Directorate. Valuable assistance was received from Pat Finlay, John Gilliland and Chris Pupp in identifying contacts, and in designing and organizing the Directory.

REMERCIEMENTS

Katherine E. Arkay (Katherine E. Arkay Consulting) a compilé la première ébauche du Répertoire dans le cadre d'un contrat conclu avec la Direction des programmes industriels, Protection de l'environnement, Environnement Canada. Mary Dufton a révisé et mis à jour cette ébauche en vertu d'un contrat avec la Direction de la planification et de la gestion des eaux, Direction générale des eaux intérieures. Nous tenons également à souligner l'aide précieuse que nous ont fournie Pat Finlay, John Gilliland et Chris Pupp pour identifier les personnes-ressources ainsi que pour concevoir et organiser le Répertoire.
